On a Sika rooftop in Sarnen, Switzerland sits an exhibit showcasing a collection of current and past Sika photovoltaic (PV) rooftop mounting methods and products.

It features sleek, low-profile solar panels that are integrated directly into the shingles, creating a seamless and uniform look. This unique design eliminates the need for bulky and obtrusive solar ...

There are many solar panel types, each with distinct characteristics, materials, efficiency rates, applications, and costs. The four main types of solar panels are monocrystalline, ...

Our superior-quality solar products deliver maximum power density, long-term reliability and are backed by one of the most trusted warranties in the industry. Silfab Solar products are designed and ...

For Exasun, I designed the X-Tile solar panel, an innovative system that seamlessly integrates solar panels with roof tiles to create an aesthetic and efficient energy roof.

The system uses a high-performance BIPV solar panel that doubles as exterior cladding. Unlike rooftop systems, it requires no additional mounting and integrates seamlessly with the architecture.

Solar panels with sisal fibre sheets exhibit adequate tensile strength and impact resistance and reduce operating temperature by 2-3 °C, ensuring stable operation and minimizing ...

Discover our range of innovative solutions for modern roofs that combine aesthetics with functionality. We created eTile Classic as the first BIPV product from a real event. As opposed to conventional ...

Photovoltaic BIPV technology is shaping the future of sustainable architecture. Onyx Solar"s customizable solutions offer architects, builders, and developers the opportunity to integrate ...

Signature Solar"s premium panels deliver top-tier efficiency and durability--powering your energy needs with

unmatched performance!
