----

Discover advanced military rack servers engineered to meet stringent defense standards while ensuring optimal performance in field and command center deployments.

Military Rackmount Servers For Extreme EnvironmentsRugged Rackmount Computers For Tactical ApplicationsThe Future of Military Rackmount ComputingRugged rackmount computers can be purpose-built to operate in environments characterized by extreme temperatures, vibrations, dust, and humidity. Encased in durable chassis, these systems are engineered to military standards i.e. MIL-STD-810 and MIL-STD-461, to ensure resilience against mechanical shock, electromagnetic interference (EMI), and othe...See more on defenseadvancement ACME PortableRugged Rackmount Servers | ACME PortableDesigned to meet MIL-STD 810G, 901D, and 461G, these rackmount solutions are for use in military, aerospace, and government environments. All rugged rackmounts can be integrated with fully sealed ...

Ruggedized, scalable, and cybersecure 19-inch rack mount servers for defense/government, industrial, and commercial applications.

The Adaptable Vertical Response Rack was designed meet and exceed full-spectrum operational vertical requirements for urban through mountain / canyon access, rescue, and ...

Ultralife have designed and installed blade retention brackets and custom mounting hardware for our cases to help secure our customers" servers and other IT components, even during ...

Designed to meet MIL-STD 810G, 901D, and 461G, these rackmount solutions are for use in military, aerospace, and government environments. All rugged rackmounts can be integrated with fully sealed ...

In order to fill the need for all scenarios we carry air-conditioned, NEMA rated, soundproof cabinets for loud servers, and a wide variety of open racks tailored to fit your exact environment. From a budget ...

10MWh North American server rack used for emergency response

The solution used 16U transit case racks with MIL-STD-810G certification for shock, vibration, dust, and water protection. The cases featured split lids for field operation while maintaining IP65 protection ...

Whether deployed locally or in tactical vehicles, aircraft, or submarines, our team combines cutting-edge technology with rugged server designs for both COTS and custom components to ensure a fully ...

Our rugged servers have been designed specifically for challenging defence applications, such as counter-UAS, electronic warfare (EW) systems and command and control solutions.
