With advanced BMS intelligence for precise State of Charge (SoC) and State of Health (SoH) tracking, these battery cabinets simplify installation, reduce maintenance, and optimize runtime.

Designed for commercial, industrial, and microgrid applications, it integrates a 30kW PCS with a 60kWh LiFePO₄ battery bank to provide safe, efficient, and reliable power storage.

The KUVU HV Industrial & Commercial Energy Storage System integrates a high-voltage hybrid inverter and rack-mounted LiFePO₄ battery modules into a single cabinet solution.

Easy Expansion: As energy needs grow, additional battery modules can be added without replacing the entire system, making it a cost-effective solution for expanding energy storage capacity.

AlphaESS is able to provide outdoor battery cabinet solutions that are stable and flexible for the requirements of all our customer's battery and energy storage demands.

Engineered for use with most type of battery terminal models, these cabinets can fit a wide variety of applications. This solution is completely customizable and flexible to support your application ...

This 60kWh/30kW AC-DC hybrid cabinet uses LiFePO₄ (LFP) battery cells (48V/51.2V) and supports PV/grid charging. Scalable via parallel connection, it features BMS/EMS for cell-level monitoring, ...

This cabinet integrates advanced battery technology, energy management systems, and intelligent controls, achieving efficient energy storage in a compact device.

This 30kW all-in-one commercial and industrial energy storage system integrates lithium batteries, inverter, and intelligent energy management into a single compact unit for stable, reliable operation.

30kW Data Center Battery Cabinet for IoT Base Stations

To cope with the problem of no or difficult grid access for base stations, and in line with the policy trend of energy saving and emission reduction, Huijue Group has launched an innovative ...
