Who is the leading solar company in the Netherlands?

1. Vattenfall Solar Netherlands The Swedish energy giant has established a dominant position in the Dutch renewable sector through strategic acquisitions and organic growth. Vattenfall's Netherlands division currently operates over 850MW of solar capacity across 25+ projects, including the massive 120MW Zonnepark Nij Beets.

Who is SolarEdge Netherlands?

Established in 2006, SolarEdge Netherlands is a prominent inverter manufacturer in the Netherlands, producing energy efficient, intelligent inverters that form the backbone of any solar panel system. With its headquarters in Amsterdam, the company's goal is to maximize solar energy production while reducing costs and complexities.

Why should you choose a glass-glass solar panel?

The glass-glass technology not only ensures a high yield but also guarantees a product life of over 30 years, providing a reliable and efficient solar panel made in the Netherlands. Smit Ovens, founded in Nijmegen in 1936, is a global supplier of thermal equipment and processes for the glass, electronics, and solar photovoltaic industries.
