In the United States, electric car sales grew by about 10% year-on-year, reaching more than 1 in 10 cars sold. Emerging markets in Asia and Latin America are becoming new centres of growth, with electric ...

Considering the global trend aimed at stimulating the development of electric vehicles to reduce global carbon dioxide emissions in the transport sector, the OSCE Academy in Bishkek conducted a study ...

It thus seems clear that for citizens of Bishkek, the dream of owning an EV will probably have to wait more than 5 years, until second-hand EVs become affordable in the local market.

Most public vehicles in the country are well out of service and need replacement. Public buses and minibusses mostly run on diesel fuel, while diesel engines generally meet only Euro IV or ...

A cut in electric vehicle prices and their maintenance combined with the rise in fuel prices for conventional vehicles may contribute to the increase in electric vehicle demand.

Global electric vehicle (EV) sales hit a record high in 2024, driven by a 40 percent surge in China, which sold 11 million EVs. While some Western countries imposed tariffs to curb Chinese...

Real-world winter test of 6 electric vehicles on the Bishkek-Issyk-Kul route. See how EVs perform in cold, mountain roads and with over 100,000 km mileage.

Chinese brands also dominate EV imports to Kyrgyzstan, but unlike in Uzbekistan, where local demand is driving sales, few EVs from China can be seen on the streets of Bishkek or Osh.

As a representative brand of China's high-end bus manufacturing industry and a key partner of the project, Ankai Bus was invited to attend and jointly witness this milestone in the green ...

According to experts, Kyrgyzstan may face some problems requiring urgent solution when transitioning to

Bishkek electric vehicle market

electric vehicles. In 2021, Kyrgyzstan, as part of the Paris Agreement, submitted an ...
