We've rounded up the absolute worst spots to install a camera and exactly why they're a disaster waiting to happen. Avoid these locations if you want a system that actually works when it ...

In most situations, installing security cameras in your home is legal, except if they violate a person's expected privacy. To be safe, keep cameras away from bedrooms, guest rooms, and ...

In the US, it's usually legal for you to install a residential security camera and record video. But US citizens are also guaranteed a reasonable expectation of privacy, which extends to ...

However, violating camera privacy laws by installing cameras in areas like restrooms, locker rooms, or employee break rooms can lead to legal trouble, regardless of your intent.

While it is generally legal to have cameras in public schools and universities, there are certain areas where cameras are not allowed. For example, cameras are not allowed in locker rooms, restrooms, ...

Bathrooms, locker/changing rooms, and similar areas with a reasonable expectation of privacy are generally prohibited for cameras. Federal law also criminalizes "video voyeurism" in ...

Fortunately, most national chains have refrained from placing cameras in dressing rooms out of concern for alienating their customers rather than issues over privacy laws. Similarly, other areas like rented ...

Placing security cameras in changing rooms or locker rooms is highly inappropriate and illegal due to the sensitive nature of activities that occur in these spaces.

While security cameras can enhance safety and monitor activities, their placement often raises questions about legality and ethics, especially in sensitive areas like breakrooms.

As a general rule, it is illegal to install security cameras in locker rooms without the explicit consent of the
