Price and other details may vary based on product size and color. Need help?

Shop our selection of battery charge controllers for wind turbines or solar panels. Protect your batteries and prevent overcharge with PWM and MPPT options.

Hook up your turbine and battery and absolutely no additional wiring is needed! Features: Totally pre-wired, mounted on a non-conductive plate and ready ...

diy, mppt_controllers, 3-phase 3 164 16 October 2025 Charging from a wind turbine with MPPT Charge Controller Q& A and troubleshooting expert, dc-dc_charger, hybrid_generators 6 388 ...

Wind generator charge controller and dumpload are set back up. They are currently routed to the pair of small 12V batteries, so the final dressing of the wiring cannot be completed.

Victron MPPTs are not supported for use on wind turbines; they're for solar input only. Most turbine kits that I'm aware of come with their own charge controller.

Q& A and troubleshootingDESS victron_community, multiplus-ii, hybrid_generators, offgrid, mppt_controllers, dess, beginner Victron-Troy 9 December 2024 21:14 1 Good evening I am new ...

Charging Lithium Batteries with Wind Turbine (In addition to my PV + Victron controller) Hello. I am still new to the world of solar/renewable energy. I have become involved as my boat now ...

You can also have a look at this post. (might help) Compatibility with Wind Generator Charge Controllers DIY

My customer has bought a wind turbine which can generate output between 0-160V DC. I am thinkin of charging BYD batteries over this wind turbine. However I need a clever protection and ...

Charge controllers for wind generators

When it comes to efficient energy management in 2025, choosing the right wind charge controller can make all the difference. With options like the ...

Choosing the right wind turbine charge controller is essential for protecting batteries, maximizing energy harvest, and ensuring system reliability. ...
