Why is CIP launching large-scale battery projects in Italy?

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to leverage CIP's expertise to advance its storage infrastructure projects. The move also supports Italy's aim to meet the nation's 2030 renewable energy targets.

Does Italy need 9gw/71gwh of energy storage?

Italy's TSO Terna says it needs 9GW/71GWh of energy storage by integrate its renewables pipeline. Image: Terna. The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

Will Italy get a state aid scheme for energy storage?

The European Union Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy.

Can Italy make battery storage projects commercially attractive?

"Italy has a clear need for storage, and the enabling market and regulatory mechanisms are being put in place to make battery storage projects commercially attractive." CIP's Flagship Fund CI V, completed in March 2025, exceeded its EUR12bn (\$12.9bn) target.

CIP and GC Storage Services to develop 2.3GW BESS pipeline in Italy The development of large-scale battery projects aligns with CIP's growing focus on energy storage.

The development of large-scale battery projects aligns with CIP's growing focus on energy storage. With Italy's supportive regulatory environment, the partnership aims to leverage ...

In March 2025, Copenhagen Infrastructure Partners (CIP) announced a strategic partnership with GC Storage Services (GCSS) to co-develop a 2.3 GW pipeline of large-scale battery ...

Abstract Decarbonising the energy system requires deploying a significant amount of large-scale energy storage (LES) devices to deal with the intermittency of renewable energy ...

# Construction of a large-scale energy storage project in Milan Italy

The European Union (EU) Commission has approved a state aid scheme aiming to fund the rollout of over 9GW/71GWh of energy storage in Italy. The scheme totalling EUR17.7 billion ...

The European Commission endorses Italy's EUR17.7 billion initiative for a centralized electricity storage system, supporting renewable integration and the EU's Green Deal. This project ...

The Italian grid-scale energy storage market is set to become one of the most active in Europe in the next few years, having been close to non-existent until now. While the residential ...

Construction of electrochemical energy storage project in Milan Italy Cernusco sul Naviglio (Milan), 11th June 2024 - De Nora Italy Hydrogen Technologies S.r.l. ("DNIHT") subsidiary company of Industrie ...

Meanwhile, energy Copenhagen Infrastructure Partners (CIP), through its Fund CIV, has entered a new partnership with Milan-headquartered developer GC Storage Services (GCSS) for a 2.3 GW pipeline ...

In a big week for the grid-scale energy storage market in Italy, regulators have approved new grid storage-specific auction rules and a chunk of Aura Power's 500MW-plus pipeline of BESS projects.
