Does Cyprus have a battery energy storage system?

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus Transmission System Operator (TSOC).

Will Cyprus install 400MWh battery energy storage system?

Image: Cyprus government /MECI. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country.

How is Cyprus developing pumped hydro energy storage capacity?

The country is also seeking to develop pumped hydro energy storage (PHES) capacity with technical assistance from the European Commission (EC) and is formulating a National Hydrogen Strategy. Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects.

Is Cyprus facing a unique set of energy challenges?

In a keynote address to open a conference on energy storage and hydrogen in March, George Papanastasiou of the Ministry of Energy, Commerce and Industry (MECI) noted that Cyprus faces a "unique set of energy challenges, which require tailored solutions."

Battery Energy Storage System in Cyprus (BESS): The Smart Choice for Commercial Energy Independence
As energy prices in Cyprus continue to rise and solar adoption accelerates, ...

The Department of Environment of Cyprus issued an approval for what could become one of the country's first battery energy storage systems.

Overview In a sun-drenched Mediterranean win for clean energy, Cyprus deployed a 12MWh Island BESS Container Microgrid across three islands in 2025 (Eurelectric). This solar ...

Cyprus's electricity regulator has approved plans to install 400MWh of battery energy storage system (BESS) projects in the Mediterranean island country. Cyprus Energy Regulatory ...

Cyprus Energy Storage Container BESS

Container battery system project ROI in Cyprus In May 2025, Cyprus successfully commissioned its first significant battery energy storage system (BESS). This project marks a major step toward enhancing ...

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and renewables.

In recent years, driven by the EU carbon neutrality roadmap, Cyprus has accelerated the deployment of solar and wind power. However, the intermittency of renewables has placed ...

The Apollon PV Park has commissioned a 3.3 MWh battery energy storage system (BESS) and solar project, in a milestone for Cyprus.

Pressured by curtailments of renewable electricity and frequent outages amid a lack of flexibility, Cyprus is in a rush to install battery energy storage systems (BESS), said Balkan Green ...

The Electricity Authority of Cyprus has announced a new tender titled "033/2025 EPC Contract for Utility Scale Battery Energy Storage System (BESS)" with a publication date of January ...
