Specification ... PVB Data Center Products ... 241kWh Indoor High-Voltage Rack Energy Storage System
1500A / 400V Air-Cooled AC Parallel Cabinet (5-in-1 Design)

For details about the differences between models or versions, see the corresponding sections. A maximum of three battery groups in up to six battery cabinets can be deployed inside the smart ...

Due to continuing improvements, specifications are subject to change without notice. Please see sales configurator for additional information. Branch breaker schedule required at time of order.

Designed for data center and critical applications, the External Battery Cabinet (EBC) can be used in conjunction with compatible UPS systems to provide prolonged system runtime during power ...

Single cell temperature, current, voltage and charge status are all monitored. Monitoring also takes place at the cabinet level to provide a clear overview of current battery status and to predict future ...

NetSure™ 700 Series with 400V DC Input 8V DC near the equipment loads. This lets you use existing 48V DC equipment loads while gaining the copper-saving benefit of 400V DC

Currently three companies have worked together to provide a high-level overview of the Diablo 400V architecture. The goal is to standardize items such as, high voltage connectors and ...

NetSure 400V DC to -48V DC converter systems can also be used to extend the copper reduction benefits of 400V DC to existing -48V DC networking loads in core telecom applications.

Powerful, Proven Batteries Vertiv HPL uses proven, high power battery modules that are rooted in the battery technology that was engineered for the demanding automotive industry.

Data Center Battery Cabinet 400V Technical Specifications

Browse our products and documents for Galaxy VM - Highly efficient 160 -1125kVA -480V and 160 -1000kVA 400V 3 phase UPS power protection that seamlessly integrates into medium data centers, ...
