The Outdoor Cabinet Energy Storage System is a fully integrated solution that combines safe battery storage, intelligent power management, and weatherproof protection for solar and telecom applications.

The CX-CI001 lithium battery energy storage cabinet can be customized for on-grid/off-grid operation mode, provides UPS functions, and can be flexibly expanded.

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on ...

With IP54/IP55 protection, anti-corrosion design, and intelligent temperature control, they are ideal for telecom base stations, remote power supply, and containerized microgrids. Our outdoor cabinets are ...

Empower your off-grid projects and grid-support applications with a reliable outdoor battery storage cabinet from TOPBAND. Engineered for harsh climates and demanding workloads, our outdoor ...

Our 200KWh Outdoor Cabinets energy storage system is built with IP54 protection, ensuring it can withstand harsh weather, from scorching sun to torrential rain.

Energy storage battery cabinets are essential for modern energy management, offering scalability, safety, and seamless integration into smart energy networks.

With a focus on efficiency, reliability, and sustainability, our battery pack offers a range of advantages that empower homeowners to harness the potential of renewable energy and optimize their energy ...

One LiHub cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system. The LiHub is IP54 rated and can be installed both indoors and ...

Energy company uses IP54 intelligent battery cabinet

Featuring LiFePO₄ or Sodium-ion battery technology, this IP54-rated system delivers safe, long-life performance with three-level fire protection, seamless off-grid switching, and remote monitoring.
