Who is Enphase solar?

Founded in 2006, Enphase transformed the solar industry with its revolutionary microinverter technology, which turns sunlight into a safe, reliable, resilient, and scalable source of energy to power our lives.

What is Enphase Energy?

Enphase Energy's product ecosystem represents a comprehensive approach to home and business energy management, centered around the company's industry-leading microinverter technology and expanded to include storage, monitoring, and charging solutions.

What makes Enphase Energy a sustainable company?

As a clean energy company, Enphase is committed to sustainable operations: Enphase Energy serves diverse customer segments across the solar energy ecosystem, from individual homeowners seeking energy independence to large commercial enterprises implementing comprehensive sustainability strategies.

How many microinverters has Enphase shipped?

Enphase has shipped approximately 84.8 million microinverters, and more than 5 million Enphase-based systems have been deployed in over 160 countries, helping millions of people gain access to clean, affordable, and reliable energy while creating good jobs and a more carbon-free future for everyone.
