Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ...

Evaluating a facility for energy efficiencies and adopting an energy conservation plan often result in increased treatment efficiency, along with the potential for increased treatment capacity, an ...

On-site batteries, low-pressure biogas storage, and wastewater storage could position wastewater resource recovery facilities as a widespread source of industrial energy ...

Stanford researchers in the WE3 and S3 Labs developed a cloud-based computation and predictive control platform for wastewater treatment ...

This study systematically assessed the energy recovery and saving potential of different technologies, providing valuable guidance for future optimizations of MWT practices.

In 2011, with the goal of lowering its overall operating costs, Broward County began investigating ways to better process fats, oils, and grease (FOG) and leverage cogeneration technologies at ...

In this study, we first review technologies developed for recovering energy from wastewater, including anaerobic bioreactors, salinity gradient energy (SGE) recovery ...
