Finland solar Module Project

The statistics for operational and planned projects are updated biannually, while the list of projects under construction is updated as new information about investment decisions becomes available.

Finland"s utility-scale solar capacity soared in 2025, adding a record 227 MW. The article covers major projects like Utajärvi, Europe"s northernmost large-scale park in Simo, upcoming ...

Explore the rapid growth of solar power in Finland, backed by EUR16.6M in subsidies. See how Finland"s solar energy strategy is paving the way to carbon neutrality.

Finland"s large-scale solar capacity more than doubled in 2025, buoyed by the commissioning of the country"s first solar projects larger than 50 MW. Another record year for ground ...

Finland"s cumulative solar PV capacity reached around 1.2 GW by the end of 2024, up from 1.0 GW the previous year. Back contact modules are proving a good fit for the Finnish market ...

Seven solar photovoltaic projects in Finland, contributing to the country"s solar energy expansion. Laivakangas Solar Park: EUR4.2 million to transform a 78-hectare former gravel extraction ...

EPV Energy"s new solar park is set to become one of Finland"s largest, featuring 123,000 solar panels. ABB has joined the project as a key technology provider, delivering automation and ...

Finland deployed 227 MW of utility-scale solar last year, according to figures from Renewables Finland. The figure is a record for large-scale solar in a calendar year for Finland, taking ...

Finland has taken a monumental step in its renewable energy journey, solidifying its largest solar power purchase agreement (PPA) to date. Scandinavian developer Alight has signed a ...
