Can pef12w-250b be installed outside?

The PEF12W-250B is designed to be built into a BESS (Battery Energy Storage System) to house PowerPlus Energy batteries and connected PCE's for charge and discharge. The cabinets are suitable to be installed indoor or outdoor. The cabinet should be installed on level, solid surface. The surface should be concrete, brick, or similar.

Where can a battery cabinet be installed?

Ranging in 300 to 400mm deep they are suitable for installation in walkways, sides of buildings, alongside industrial equipment and areas with limited space. The cabinets come pre-wired with all interconnecting battery cables and a DC busbar for easy indoor or outdoor installation of our batteries.

Where are Powerplus energy cabinets made?

PowerPlus Energy cabinets are designed and manufactured in Australia for the world's harshest conditions to be a crucial part of an overall simple, flexible and reliable energy storage solution. 2. Safety Installers and users are responsible for familiarising themselves with this manual.

Can Powerplus energy cabinets be shipped on a pallet?

PowerPlus Energy's cabinets can be large and heavy and should be shipped in the original manufacturer's packaging and secured to a pallet. Cabinets should not be top loaded and care afforded to ensure no damage occurs from fasteners. All cabinets from PowerPlus Energy are designed to be transported empty of batteries and heavy PCE.
