A hybrid power plant capable of storing electricity was inaugurated on Tuesday in Veszprém county in western Hungary, which - unique to Central Europe - can store solar energy for ...

European energy company MET Group has inaugurated its 40-megawatt battery storage system in Székesfehérvár, Hungary, indicating a strong push toward renewable energy for the region.

The Swiss company MET Group has taken a key step in its decarbonization strategy with the commissioning of the largest battery energy storage system in Hungary.

Hungary's largest operating standalone battery energy storage system (BESS) has been inaugurated today: MET Group put into operation a battery electricity storage plant with total nominal ...

Situated at the Dunamenti Power Station in Székesfehérvár, the new battery energy storage system builds on MET Group's earlier 4 MW / 8 MWh demonstrator plant installed in 2022 ...

MET Group put into operation a battery electricity storage plant with total nominal power output of 40 MW and storage capacity of 80 MWh (2-hour cycle). It is the latest example in a series ...

The installation of grid energy storage facilities strengthens self-sufficiency, reduces external exposure and greenhouse gas emissions, according to the project justification. According to ...

Hungary switches on its largest battery energy storage system at Dunamenti gas power plant to support grid flexibility near Budapest.

With this latest BESS plant, which went into operation, MET Group and the Dunamenti Power Station are further strengthening their contribution to the energy transition in Hungary.

Hungary hybrid energy storage power station

MET Group installed a battery energy storage system of 40 MW and a two-hour duration at its gas power plant Dunamenti near Budapest. The company said it is the largest BESS in Hungary.
