What is a containerized wastewater treatment plant?

A containerized wastewater treatment plant is a wastewater treatment system that is fully integrated into a container. For uncomplicated and fast transportation, we use 10, 20 and 40-foot shipping containers in accordance with the international ISO standard for our KLARO container systems.

What is a ClearFox® containerized wastewater treatment plant?

ClearFox® containerized wastewater treatment plants offer a highly cost-efficient solution with low capital and operating expenses, as they require no extensive planning, civil works or permanent buildings. The system only needs to be placed on a solid base and connected.

How many m³ of wastewater can a containerized wastewater treatment plant handle?

We have experience with containerized wastewater treatment plants for up to 1,380 PE or 207 m³ of wastewater per day. A wastewater treatment plant is only as effective and efficient as the installed system.

How can a containerized water treatment system help a large-scale reverse osmosis plant?

Take the difficulty out of large-scale reverse osmosis plants with containerized water treatment systems. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft containers with the option for a 10-ft as well, the complexity and construction of building water purification systems are no longer necessary.

KLARO Container: Mobile wastewater treatment plants in 10-, 20- or 40-foot containers. Ready for immediate use, flexible and cleaning with proven SBR

Containerized package plants offer a portable, plug-and-play solution for water and wastewater treatment. They are ideal for remote locations, emergency response, or temporary needs, providing ...

High-Capacity Industrial Wastewater Plants Engineered for large-scale industrial applications, these systems handle high-strength effluents while maintaining compliance with strict regulations.

A modular containerized wastewater treatment plant is a prefabricated system installed in standard containers, offering fast deployment, scalable capacity, and flexible operation.

Large Capacity Folding Containers for Wastewater Treatment Plants

Take the difficulty out of large-scale reverse osmosis plants with containerized water treatment systems. By choosing pre-designed, module-sized plants, fully assembled in standard 20-ft and 40-ft ...

BioKube offers a variety of containerized wastewater treatment plants in standard shipping containers for easy relocation.

ClearFox containerized wastewater treatment plants offer a highly cost-efficient solution with low capital and operating expenses, as they require no extensive planning, civil works or permanent ...

Containerized Sewage Treatment Plants provide a versatile, efficient, and cost-effective solution for wastewater treatment in diverse settings. Their portability, quick setup, and advanced ...

For large scale wastewater treatment applications, the treatment modules will depend on the influent and the effluent requirements and characteristics. Primary treatment/screening involves mechanical ...

TLS supplies intelligent mobile and containerised waste water treatment plant or sewage treatment plant container, which can be remotely controlled to monitor system condition and water ...

Containerized Waste Water Treatment Typical Applications For Containerized Sewage Treatment Biocell Containerized STP Capacities and Approvals How Do Containerized Stps Treat Wastewater? Advantages of Conatinerized and Temporary Wastewater Treatment How to Buy A Containerized WWTP Biocell Water containerised wastewater treatment plants offer a fast and effective above ground portable wastewater treatment system solution for any site, without the need for any existing infrastructure. Containerized mobile treatment systems are ready to use immediately on delivery and cater from 60 persons to 20,000 persons capacity. A containe...
