In October 2024, ODATA (Aligned Data Centers) signed a supply agreement with Casa dos Ventos in Brazil to expand its sustainable data center footprint within Latin America.

This continent databook contains high-level insights into Latin America data center rack market from 2018 to 2030, including revenue numbers, major trends, and company profiles.

Latin America, Middle East & Africa Data Center Rack Server Market Databank provides overview on development of the industry, market situation and trends at Magna Intelligence.

The Latin American data center rack market is growing due to the rise in the number of data center constructions in the region. Over the last few years, Latin America has been witnessing significant ...

The Latin America data center rack & enclosure market has demonstrated robust growth over recent years, driven by a confluence of technological, economic, and regulatory factors.

Demand Drivers and High-Growth Segment Analysis for the Latin America Data Center Rack Market. The Latin America data center rack market is poised for robust growth driven by...

Latin America Data Center Rack Market is securing a massive growth in the recent years with the growing need for data security and compliance within businesses.

The Latin America 25kW DC AC Bidirectional Module Market presents significant investment potential driven by rising demand, technological advancements, and favorable regional ...

Key HighlightsMarket TrendsGeographical AnalysisCompetitive Landscape The Latin America data center rack market investments are led by Brazil, which accounted for around 50% of the industry investments in 2021.The growth in cloud computing and the growing interest of global cloud service providers will also increase the demand for OCP scale infrastructure, including taller, deeper, and broader rack solut... The Latin

America data center rack market investments are led by Brazil, which accounted for around 50% of the industry investments in 2021. The growth in cloud computing and the growing interest of global cloud service providers will also increase the demand for OCP scale infrastructure, including taller, deeper, and broader rack solutions. Adopting HPC technologies such as AI, big data, and IoT plays a significant role in developing advanced OCP scale rack infrastructure, including converged and hyper-converged infrastructure. Vendors such as Huawei Technologies, Cisco Systems, Delta Electronics, Schneider Electric, and Vertiv are also a part of the OCP community. They continuously innovate their infrastructure. See more
