Three scientists have been awarded the 2019 Nobel Prize in Chemistry for the development of lithium-ion batteries.

Professor John B Goodenough from the Cockrell School of Engineering at The University of Texas at Austin has been awarded the ...

Goodenough, along with Stanley Whittingham and Akira Yoshino, was being recognised for his role in creating lithium-ion ...

The Nobel Prize in Chemistry 2019 was awarded jointly to John B. Goodenough, M. Stanley Whittingham and Akira Yoshino "for the development of lithium-ion batteries"

These three scientists, John B. Goodenough, M. Stanley Whittingham and Akira Yoshino (from left), have won the 2019 Nobel ...

The Royal Swedish Academy of Sciences has decided to award John B. Goodenough, M. Stanley Whittingham, and Akira Yoshino the Nobel Prize in Chemistry 2019, for the development of lithium ...

John B. Goodenough, M. Stanley Whittingham, and Akira Yoshino will share the prize for developing the chemistry of the ...

The Nobel Prize in Chemistry 2019 rewards the development of the lithium-ion battery. This light-weight, rechargeable and powerful battery is now used in everything from mobile phones to laptops and ...

Three scientists have won the 2019 Nobel Prize in chemistry for helping create lithium-ion batteries, which power everyday devices from smartphones to electric cars.

Lithium ion battery nobel prize winner 2019

The Royal Swedish Academy of Sciences on Wednesday awarded the 2019 Nobel Prize in Chemistry to three scientists who ...

The Nobel Prize in Chemistry 2019 is being awarded to John B. Goodenough, M. Stanley Whittingham, and Akira Yoshino "for the development of lithium-ion batteries."
