-----

LONGi's technological and manufacturing leadership in solar wafers, cells and modules underscores our commitment to helping accelerate the clean energy transition. By offering high-quality, reliable ...

LONGi Solar is the world's leading manufacturer of high-efficiency monocrystalline silicon wafers and PV modules. With advanced HPBC and PERC technology, LONGi delivers reliable, high-performance ...

The application level of LONGi Solar module is Class II, which can be used in systems operating at  $\geq 50$  V DC or  $\geq 240$  W. where general contact access is anticipated;

Longi solar panels undergo rigorous testing and quality control during the entire manufacturing process, from the production of silicon wafers to the assembly of solar modules.

Today, LONGi is part of a community of world-leading producers of monocrystalline silicon panels. In 2016, they launched mono-PERC modules with integrated PERC technology on monocrystalline ...

LONGi launched its mono-PERC modules in 2016, featuring integrated PERC technology on monocrystalline silicon and low light degradation, and its cell efficiency has increased from 21% to ...

What solar panel modules does LONGi offer? LONGi offers four main module series, the Hi-MO 7, Hi-MO X6, Hi-MO 5, and Hi-MO 5m -- but only the Hi-MO 5m Series offers panels for residential use..

Innovations also at the module level: In addition to several advancements at the cell level, LONGi's HPBC structure also supports line interconnections at the module level rather than Z-shaped ...

Despite their high performance, LONGi modules are competitively priced. The complete range spans a wide range of applications and are backed by comprehensive warranties.
