What are photovoltaic screws & other hardware products?

Photovoltaic screws and other hardware products also include nuts, plates and various fixing brackets specifically designed for mounting solar panels on different surfaces, such as roofs, roofing, structures and ground.

How do I choose the right solar panel fixings?

Selecting the right solar panel fixings requires careful consideration of the type of solar panels being installed. Whether you're working with monocrystalline, polycrystalline, or thin-film panels, ensuring compatibility between the panels and the mounting system is essential.

What are photovoltaic bolts?

Our photovoltaic bolts are built to withstand even the harshest weather conditions over the years. Screws and bolts for solar panel mounting consist of fasteners, such as photovoltaic screws, bolts and nuts, which are used to anchor and install the modules.

How to fix solar panels at an angle?

At INDEX you can find a wide range of fixings and accessories designed specifically for this purpose: Adjustable triangles. They are ideal for fixing solar panels at an angle and are mainly made of steel and aluminium. They are used as a complement to the support and help to regulate the inclination of the panels on the roof.

Factors to take into account when choosing a fastener for solar panels Before choosing the right type of screw for fixing photovoltaic structures on metal roofs, it is important to analyse the ...

We offer all essential solar PV fixing sale items, including the most commonly used equipment for securing solar panels to rails and mounting systems. This section of our website provides solar PV ...

Solutions for installing solar panels on roofs: triangles, profiles, fixing accessories, etc. They enable fast, efficient and reliable installation.

Specifications for fixing screws on photovoltaic panels What is the importance of fasteners in photovoltaic installations? Fasteners hold a pivotal role in photovoltaic installations. While they might ...

Photovoltaic panel fixing screw

Selecting appropriate mounting hardware is vital for solar panels' optimal performance and longevity. The suitable mounts secure the panels firmly and influence their energy absorption ...

Solar socket screws Our PV clamp fixing solar socket screws are available in the following sizes. 8 x 20mm, 8 x 35mm, 8 x 40mm, 8 x 45mm, 8mm x 50mm and 8 x 100mm a real guarantee against ...

The most efficient way to install a solar photovoltaic system is by using a Heliomotion. Simply because a Heliomotion has innovative sun-tracking technology that enables solar panels to track the sun ...

Stud screw STSR A2. STSR is the double-threaded screw in A2 stainless steel for PV panels mounting on corrugated panel or faux-barrel tile roofs with wooden load-bearing structure. ...

Photovoltaic screws and other hardware products also include nuts, plates and various fixing brackets specifically designed for mounting solar panels on different surfaces, such as roofs, ...

Supports, aluminum profiles, panel clips, anchors, triangle tilt and more. All what you need for all types of rooftop photovoltaic installations. A range designed to ensure a fast, efficient and ...
