Jinghe Xixian Solar PV Park is a 34MW solar PV power project. It is located in Henan, China.

LONGi (LONGi Green Energy Technology) announced on March 20 that its new PV cell project in China's Shaanxi Province has entered the phase of full-scale production.

The world-leading solar photovoltaic enterprise LONGi Green Energy Technology launched its production base in Jinghe New City of Xixian New Area with a total ...

Power your outdoor devices with the efficient XIXIAN 10W 6V Micro USB Solar Panel. Designed for reliability and ease of use, this monocrystal silicon solar plate offers continuous charging for your ...

This particular project will reach an annual output of 100GW monocrystalline silicon wafers and 50GW solar cells, which will be the largest base of LONGi in China, as well as the PV ...

About this item [Easy to Use] : Simply place the solar panel in direct sunlight and connect it to your desired electronic devices for efficient power supply. [High Efficiency] : With high conversion ...

Costing 45.2 billion yuan (\$6.34 billion), the project will be a photovoltaic plant with the largest construction scale, the highest production capacity and the most advanced technology in the ...

Recently, the pilot line of the perovskite thin film solar cell project of Xi'an Tianjiao New Energy Co., Ltd. was officially launched in Fengxi New Town, Xixian New Area.

[Versatile Applications] : Suitable for various off-grid applications, including rvs, boats, electric vehicles, trailers, and tool trailers, this solar panel kit can also serve as a reliable backup ...

Longi has announced plans to produce its new hybrid passivated back contact (HPBC) 2.0 solar cells at a 12.5 GW facility in Xixian New Area, Shaanxi province. Longi said its HPBC 2.0 cell...
