What breaker do I need for a solar panel?

Suntree 16A, 25A, 32A, 40A, 50A or 63A 2Pole Solar PV DC Circuit Breaker AS/NZS STANDARD This is the breaker you need to isolate and protect between your solar panel (s) and controller. Simply mount on standard DIN rail. These have the IEC60947-2 standard which is higher than the IEC60898-1. Essentially meaning that they

How does a DC array isolator work?

Place this DC Array isolator between your solar array and your charge controller to allow you to safely turn off your Solar array in event of problem or for maintenance on your system. It is lockable. There are 4 Poles inside, so you can switch both positive and negative on 2 separate arrays. Waterproof rating: IP66 Switching: 4 Pole

What types of isolation switchgear does nhp offer?

NHP offers an extensive range of isolation switchgear ranging from modular DIN and base mount switch-disconnectors for main switch isolation and emergency switching, to DC load break switches for solar PV and battery isolation.

What is an enclosed isolator?

Enclosed isolators provide a reliable and robust solution for electrical isolation needs, ensuring a high level of protection for personnel and equipment.

BYH Series DC Isolator Switch in plastic enclosure is applied 1~20KW Residential or Commercial Photovoltaic system, placed between photovoltage modules and inverters. Arcing time ...
