We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

Explore how 5G base stations are built--from site planning and cabinet installation to power systems and cooling solutions. Learn the essential components, technologies, and challenges behind 5G

The Serbian company ElevenEs has opened a plant for the production of battery cells. It is located in Subotica, Serbia, and specialises in the production of prismatic LFP cells.

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Nicaragua with our comprehensive ...

This article explores the plant's role in advancing energy storage technology, regional market opportunities, and how stakeholders can leverage this facility for sustainable development.

The plant recently partnered with a Nicaraguan university to develop bio-based battery components using native plant extracts. Early tests show promise for more sustainable energy storage.

With an \$83M investment from CABELI, Nicaragua is building a 100 MW solar plant to cut emissions and boost its renewable energy goals. Discover the project's impact.

Upon completion, the plant will become Nicaragua's largest solar installation, marking a significant milestone in the country's pursuit of renewable energy expansion.

The El Jaguar photovoltaic plant, a 16 MW solar facility located in Malpaisillo, Nicaragua, has begun supplying electricity to the national grid. It features nearly 40 bifacial solar panels along ...
