Our standard cabinet comes with fire system isolation, state-of-the-art liquid-cooling technology, combustible gas detection, and an FM200 fire extinguishing system, ensuring the safety and ...

The combination of solar modules, advanced batteries, inverters, and automatic switching creates a resilient emergency power system for telecom cabinets. This integration supports ...

The battery pack and system will incorporate an aerosol fire-extinguishing solution, ensuring optimal protection. Additionally, the system features combustible gas, smoke, and temperature detection, ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

Equipped with advanced MPPT technology, it allows for seamless solar energy utilization, grid support, and battery backup in one sleek, high-tech unit. Whether...

When evaluating a hybrid solar installation, you should look for a solution that offers the most comprehensive support options and a partner that can walk you through the design and testing as ...

With this solar-powered solution, telecom operators can reduce their reliance on the grid and ensure uninterrupted communication services even in remote areas. This telecom cabinet is equipped with a ...

Photovoltaic Inverter Fire Extinguisher -Highly effective aerosol fire extinguishing agent specially designed for the PV inverter and solar panel systems. 40 grams extinguishing compound is filled ...

A Grid-connected Photovoltaic Inverter and Battery System keeps power flowing, even during blackouts. It

Solar-powered communication cabinet inverter grid-connected fire extinguishing solution

switches smoothly between solar power, batteries, and grid electricity.

The Tiger Fire Extinguisher is a DIN rail-mounted automatic fire suppression device, specially designed for solar distribution boxes, inverter panels, and electrical cabinets.
