Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with integrated storage for rapid deployment in construction, events, ...

With this container, Creacar is making clean, renewable energy more accessible and mobile. It's ideal for locations where traditional power sources aren't available, offering a sustainable ...

The mobile solar containers and portable solar chargers are designed with easily foldable solar panels which makes them ideal for remote areas and versatile applications like mining, construction, events ...

It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized container for global mobility. Set on hydraulic legs for easy elevation from trailers, this container is ready for action ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

MOBIPOWER hybrid clean power containers combine battery energy storage systems with off-grid solar containers for remote industrial sites in Canada & USA.

Revolutionary mobile solar energy systems with 40% higher energy density. Deploy in under 6 hours and cut energy costs by up to 70% compared to diesel generators.

Solarabox is built to solve project power needs. The system is modular and easily scalable: you can add multiple units to increase output, and it supports on-grid, off-grid, and hybrid configurations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

Super Mobile solar container outdoor power

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.
