Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage ...

India's GoodEnough Energy said on Tuesday that it has commissioned a 7 Gigawatt-hour (GWh) battery energy storage system (BESS), the country's largest, in the northern state of Uttar ...

Factor This(TM) is your premier source for green energy and storage news. Learn the latest in solar, wind, bio, and geothermal energy.

In 2024, 91% of new renewable projects offered cheaper electricity than the lowest-cost, new-build fossil fuel alternative. The cost of battery energy storage systems for grid applications also ...

This 1 GWh project is set to become one of the largest battery energy storage projects in Italy and in Europe. Trina Storage is already preparing additional projects for delivery under Italy's ...

Enea surges with 400 MW of solar and wind, widening daytime power, firming evenings as storage matures--cutting costs, boosting reliability, PPA-backed growth, battery-ready grids and ...

A new report from Wood Mackenzie identifies five key trends that will define the energy storage industry in 2026, including supply chain restructuring and the rise of non-lithium batteries.

Battery energy storage projects have emerged as the dominant force in Australia's energy investment landscape, accounting for 46% of the nation's 64GW development pipeline, according to the ...

Join us at Solar Power World as we cover the world of solar news on technology, development and installation on a daily basis.

The latest positive news for photovoltaic energy storage

News for solar installers and EPCs, covering off-grid lead-acid and AGM, grid-tied lithium-ion based battery systems, microgrids, utility-scale containers.
